Amplifying Business Solutions

We've partnered with organizations across various industries to decode their unique business challenges. We will help you move faster in the direction you need to be while creating value from your IT infrastructure investments.

VISION

To create, innovate and transform digital communities and enterprises by creating value, transparency, trust, and integrity with a diversified workforce with unified goals and aspirations.

MISSION

Our mission is to provide solutions that contemplate the whole process, from research and market analysis to implementing the right go-to-market strategy. We work closely with our clients to understand their industry, and their organizational and IT infrastructure, and guide them on a path to success by implementing automation solutions that can help reduce costs, increase efficiencies, improve quality, and speed delivery time. Our goal is to establish long-term relationships with our clients so that they retain the expertise of their team members creating loyal customers who come back year after year.

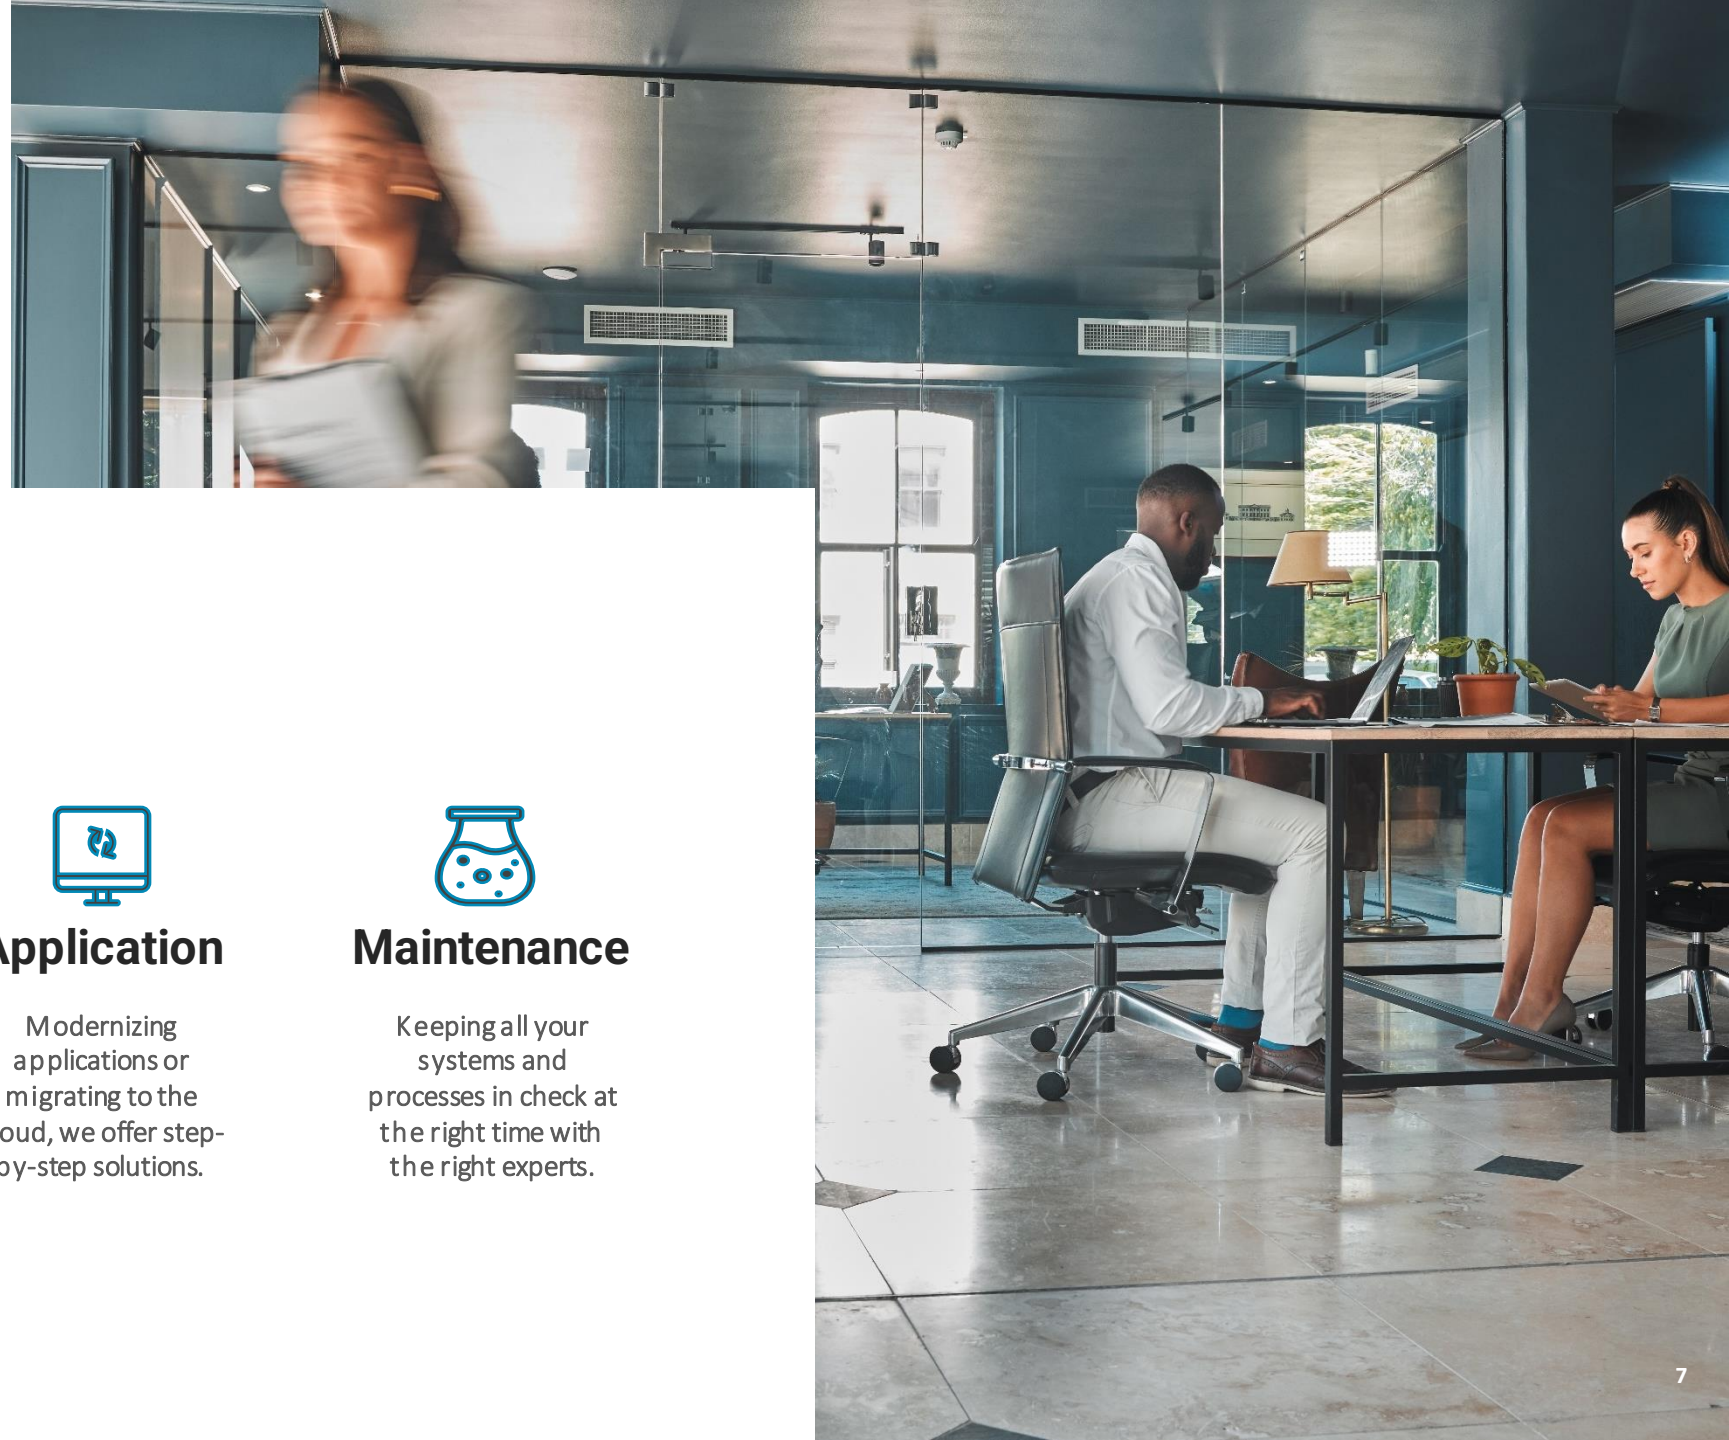

WHAT WE DO

Enterprises today do not just need advanced digital products but a complete suite of IT services to back them up with a world-class IT infrastructure to build long-term partnerships with their clients and vendors.

OBJECTIVE

With our streamlined delivery models, product-driven immersive experiences, and end-to-end integration with security services, we ensure enterprises remain productive yet secure and resilient.

WHAT WE DO

Consultation

Offering a complete strategic and transformation action plan for your enterprise.

Design

Giving a form and shape to your digital infrastructure for maximum output and productivity.

Application

Modernizing applications or migrating to the cloud, we offer step-by-step solutions.

Maintenance

Keeping all your systems and processes in check at the right time with the right experts.

emPay

Your All-In-One Payment App

A unique mobile payment ecosystem spearheaded by the Dubai Economy & Tourism

emPay is a pioneering contactless payment ecosystem with the world's first instant credit facility for lifestyle payments. Designed and developed within UAE's Smart Government program framework, this one-of-a-kind application provides multiple payment modes for several lifestyle needs at the convenience of a click on the phone.

Our Solution

Customer Review: Husn E Ara Bano

Rating: ★★★★★

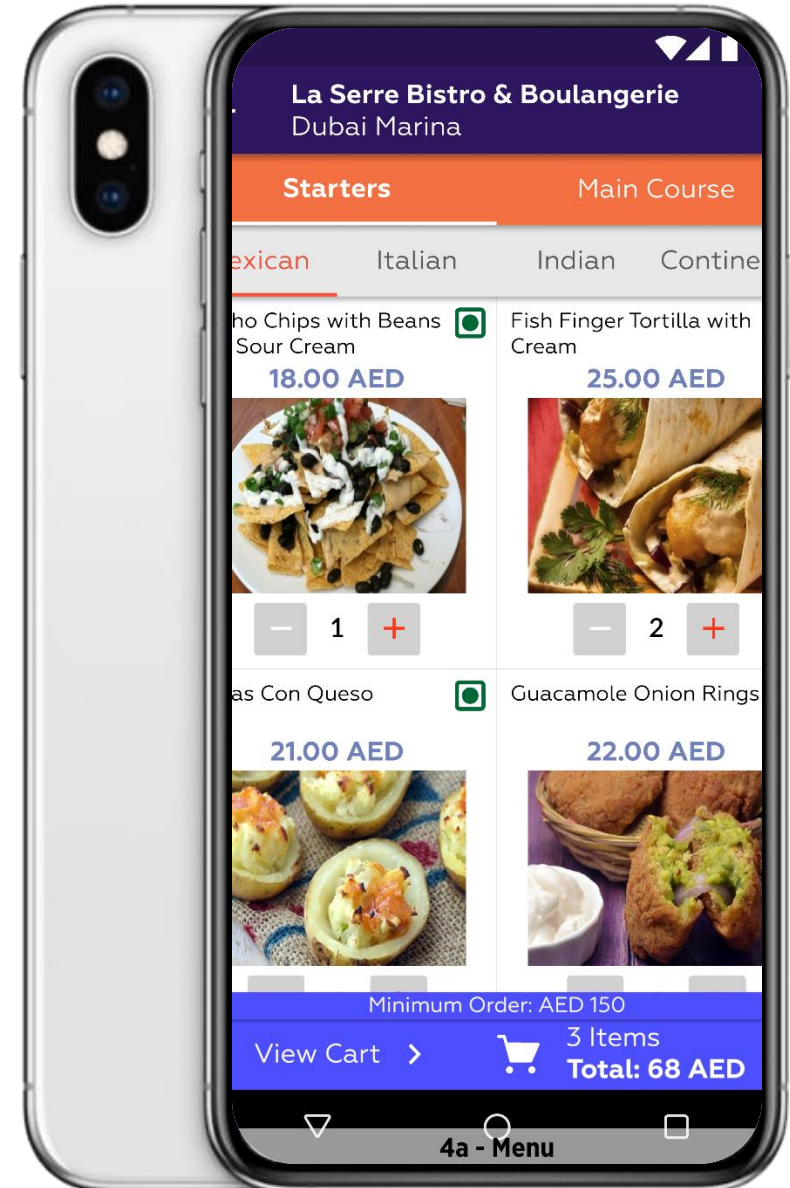

Just an Amazing app... Which I was looking for..! Recently I move here to UAE and looking for something like the Paytm app.. which will do all my payments including my utilities.. mobile recharge, metro card recharge...everything.. best part this has a food section also is in it. Good work, and all the best to the team.

Features

- Simple Access
- Tap and Pay
- All-in-one payment app
- Secure Transaction
- Fantastic Deals and Discounts

Technology Stack

- ✓ Java – Android Native
- ✓ PHP (CodeIgnitor) – Web Backend
- ✓ L.A.M.P. – Server
- ✓ HTML / CSS3 – Web Frontend
